

April 15-17, 2020

Vladivostok, Russia

CITY · 27th International Construction Exhibition

Primorsky Territory is one of the most dynamically developing regions of Russia

The laws on Advanced Special Economic Zones and the Free Port of Vladivostok outline a comprehensive agenda to improve the strength of the regional economy and to create a range of new industrial opportunities.

Significant construction is currently underway in Primorsky Territory, including development of industrial and agricultural facilities, residential housing, community buildings and road infrastructure networks.

The region has a strong demand for construction materials, energy-efficient technologies, service and utility vehicles, machinery and equipment.

The CITY Exhibition is the main event of the construction industry of the Primorsky Territory

80% of our visitors are building industry professionals, senior management of construction and renovation companies, architects, engineers, designers, residents of the Free Port of Vladivostok, public officials from towns and districts of Primorsky Territory and property management companies.

An effective sales tool in the dynamic market of the Far Eastern Federal District

The CITY Exhibition is a great platform to increase sales, reach new markets, generate trade leads, promote products and meet new partners and customers

Recognized platform for dialogue between business and public officials

Primorsky Territory Administration specialists and professional associations use the exhibition to discuss current problems and work out solutions.

Rich business program and training events

Conferences, round tables, seminars, workshops, product awards, and special projects

Advertising and promotion

Information support, leading media partners, specialized portals, modern promotion channels
